NATANA SUNDARAM

Full Stack Developer | React.js · Node.js · Express · SQL
Phone: +91 93843 75263 | Email: nadanasundaram79@gmail.com | Trichy, India
LinkedIn: linkedin.com/in/natanasundaram | GitHub: github.com/natanasundaram08

Professional Summary

Full stack developer who's built CRUD applications in React.js with RESTful API integration, including a task manager and a social media app with full create/edit/delete functionality. Backed by structured training in React.js, Node.js, and Express through three internships. Looking for an entry-level full stack role to keep building on that foundation.

Education

SRM TRP Engineering College – Trichy, India *SEP 2022 – MAY 2026*
Bachelor of Engineering, Computer Science & Engineering — CGPA: 7.9

Nirmala Matric Hr Sec School – Chidambaram, India *2020 – 2021*
Higher Secondary (12th Grade) — Percentage: 80.30%

Work Experience

Full Stack Development Intern – NoviTech R&D Private Limited (Remote) *OCT 2024 – NOV 2024*

- Completed a full stack training program covering React.js, HTML5, CSS3, and JavaScript, with daily coding exercises on component structure and state.
- Practiced building React components and responsive layouts through guided exercises, working through the full front-end-to-backend flow of a web app.

Technologies / Tools Used: *React.js, Node.js, Express*

Web Development Intern – CodSoft (Remote) *AUG 2024 – SEP 2024*

- Studied core web development through HTML5, CSS3, and JavaScript coursework, applying concepts in practice exercises on responsive page layouts.
- Covered cross-browser compatibility and UI/UX fundamentals as part of the training curriculum, applied in small layout exercises.

Technologies / Tools Used: *HTML5, CSS3, JavaScript*

Web Development Intern – TechnoHack (Remote) *FEB 2024 – MAR 2024*

- Completed front-end development training in HTML5, CSS3, and JavaScript, working through structured coding modules.
- Studied responsive design principles, site structure, and CSS styling through hands-on training modules.

Technologies / Tools Used: *React, Express, Node.js*

Projects

To-Do List Web Application – Developer

- Built a full CRUD task manager in React, structuring the UI into 10 reusable components with localStorage so tasks persist across page reloads.
- Managed state with React Hooks (useState) across all 10 components, keeping task updates synchronous without prop drilling or a state library.

Technologies / Tools Used: *React.js, JavaScript, HTML5, CSS3*

Social Media Application – Developer

- Integrated a React.js front end with RESTful APIs using Axios, implementing complete CRUD functionality through GET, POST, PUT, and DELETE operations for post management.
- Developed 5+ reusable React components using React Hooks for state management, letting posts and edits update dynamically without a page refresh.

Technologies / Tools Used: *React.js, JavaScript, HTML5, CSS3, Axios*

Air Quality & Health Assessment Using Dynamic PLI and Federated Learning – Team Member

- Developed an air quality monitoring application as part of a team, tracking 5+ air quality parameters and integrating a 20+ condition health dataset to surface pollution-related health risks.

Technologies / Tools Used: *HTML, CSS*

Skills

Programming Languages: Java, JavaScript
Databases: MS SQL Server, MySQL
Frameworks & Libraries: React.js, Node.js, Express, Axios
Concepts: RESTful APIs, CRUD Operations, Responsive Web Design, Version Control
Tools & Platforms: Git, GitHub, Visual Studio Code, Online IDEs
Soft Skills: Problem Solving, Attention to Detail, Team Collaboration, Communication, Adaptability, Time Management
